

Instructions to run the flask app

- 1) Clone the master branch from the repository <https://github.com/rtapiaoregui/chatterine> to your computer.
- 2) Go to `core_product/funky/guide.py` and modify `data_pth`, in line 29, to the local path where you have downloaded the code.
- 3) This is the link to the data folder: <https://docs.google.com/spreadsheets/d/1Eo-jsDXCnXlwX31r5XtrifiH6BDBVQW2SyNdQFY6k7k/edit?usp=sharing>
- 5) Run `python3 chatterine/code/core_product/main.py`
- 6) Your app is now live in (local IP):5000 - (To find your local IP, check <https://www.whatismybrowser.com/detect/what-is-my-local-ip-address>)
